## SUMMARY

---

Proactive Information Technology and Computing student passionate about software engineering, AI, and cybersecurity. Demonstrated leadership in revitalizing and managing the University Computer Club, expanding membership to over 130 through engaging technical workshops and events. Eager to apply leadership skills and growing technical expertise in software development or artificial intelligence.

## EDUCATION

---

**Arab Open University,** Sep 2022 – 2026 (undergraduate)  
*Bachelor of Information Technology and Computing* Saudi Arabia

## PROFESSIONAL EXPERIENCE

---

**Madinah Development Authority,** Sep 2025 – Feb 2026 | Saudi Arabia  
*Information Technology - Coop*

- Executed an extensive curriculum covering IT support, networking, databases, and cloud services, significantly advancing my technical knowledge and capabilities.
- Resolved user issues and maintained system reliability in active environments, ensuring smooth IT operations
- Supported network operations by handling configuration tasks and troubleshooting to improve system performance
- Assisted with database management and various system-level tasks, contributing to efficient data handling.
- Played a key role in technical implementations across multiple IT domains, enhancing overall operational efficiency.

**Haraka, Software Engineer - Internship** Jul 2025 – Aug 2025 | Saudi Arabia

- earned the fundamentals of HTML, CSS, JavaScript, and HTTPS.
- Deployed projects to GitHub using Git Bash.
- Built interactive web applications with core features such as Add, Edit, Delete, Search, and Count.
- Practiced Object-Oriented Programming concepts using JavaScript and TypeScript.
- Developed applications using React.
- Collaborated with senior engineers in both frontend and backend development.
- Recorded and documented training sessions for the team.

**Tamakkon Comprehensive Autism Center,** Jun 2025 – Jul 2025 | Saudi Arabia  
*Information Technology - Internship*

- Contributed to the development and enhancement of the association's official website
- Developed a personal contact website for the Executive Director to support communication during conferences and visits
- Inspected and updated smart screens, activated security systems, and resolved issues related to ethernet and audio systems
- Hands-on training on **Odoo ERP system**, including customization, modules, and infrastructure understanding

- Assisted the IT team with regular maintenance and documentation of recurring technical issues

**Arab Open University, Computer Club President**

Sep 2024 – Jan 2026 | Saudi Arabia

- Managed operations and events for 130+ student members
- Organized programming workshops, industry tours, and cybersecurity sessions
- Developed partnerships with tech professionals for mentorship
- Collaborated with cross-disciplinary teams on AI solutions

## SKILLS

---

- **Technical Skills:**

Python, Java, SQL, HTML, CSS, JS, TS, React, Machine Learning, Deep Learning, Software Development, UI/UX

- **Soft Skills:**

Communication Skills, Time Management, Teamwork, Self-learning, Problem Solving

## LANGUAGES

---

**English**

*Proficient*

**Arabic**

*Native/Bilingual*
